ABOUT ME

Senior Frontend Engineer with 7 years of experience building analytics-heavy dashboards, marketing platforms, eCommerce and IoT products. I combine frontend architecture with a deep understanding of browser rendering, scheduling and performance. My focus: scalable interfaces, experimentation tools and AI-agent workflows where correctness matters.

Senior Frontend Engineer at Apliteni

REMOTE

Jan 2024 - Present
Tallinn, Harjumaa, Estonia

- Built **UI virtualization** with pseudonodes: native Ctrl+F and stable scrolling across **100k+ rows**, within browser DOM and memory limits.
- Moved landing pages to **Framer**, letting designers launch campaigns without engineering support.
- Built an **AI-agent CV screening workflow** to improve recruiter productivity and shortlist relevance.

Tech stack: React, Nest.js, TypeScript, Redux, TanStack Query, Zustand, Playwright, Tailwind, Vite, GitLab CI/CD, Sentry, Docker, REST API

apliteni.com

Senior Frontend Engineer at Dimension Four

REMOTE

May 2022 - Dec 2023
Skien, Vestfold og Telemark, Norway

- **Architected a headless IoT frontend** from scratch: a data-transformation layer and embeddable widgets on a unified GraphQL API, including live public statistics for municipalities.
- Built a **live operator dashboard** with alerts, tables and graphs using GraphQL subscriptions.
- Created a **framework-agnostic Lit library** of charts, counters and maps for React, Angular and plain websites.

Tech stack: React, TypeScript, Apollo Client, Lit, Jest, Material UI, Webpack, Sentry, GraphQL API

dimensionfour.io

Frontend Engineer at Apple (Contract via NVP Software)

REMOTE

Apr 2021 - Apr 2022
Belmont, California, United States

- Developed **configurable campaign templates** for regional and client needs, accelerating launches and onboarding without custom code.
- Used **RxJS asynchronous flows** in live previews to eliminate race conditions and stale fields.
- Built **dynamic campaign forms** with validation, dependencies, user rights, localization and approval flows from draft to submission.

Tech stack: React, JavaScript, Redux, RxJS, Ramda.js, Jest, Storybook, Ant Design, Webpack, REST API

partnerhub.apple.com

Frontend Developer at Facepass

Feb 2019 - Mar 2021

Tech stack: React, Next.js, TypeScript, Redux, Storybook, SCSS-Modules, Webpack

SKILLS

React.js · Next.js · TypeScript · TanStack Query · Zustand · RxJS · Apollo Client · Redux · Frontend Architecture · Design Systems · Performance Optimization · SSR/CSR · Accessibility · Jest · React Testing Library · Playwright · Storybook · Tailwind CSS · Styled-Components · Shadcn · SCSS · REST API · GraphQL · WebSockets · Monorepo · CI/CD · Git · Vite · Webpack

EDUCATION

Bachelor of Marketing

2013 - 2018
Belarusian State Technological University
